

Onerity Credential

Our philosophy

Together we succeed

What we offer

Market-fit product consulting

Avoid costly mistakes - know what people want. Let us save you time and effort by providing expert insights for your business's success.

Innovative product design

Elevate your digital presence with our user-centric design expertise, including UI/UX design, user operation flow, graphics design, Design3 for Web3, and UX audits for optimal results.

Creative brand design

Discover the power of exceptional marketing design, including logo design, branding guidelines, banners, POSM, and more, to elevate your campaigns and captivate your audience.

Why Onerity?

Our differentiations

#1

Product mindset included

Our team comprises experienced product experts who have built products with millions of users. We bring this mindset to build your product. If you're not satisfied, we offer a 100% money-back guarantee.

#2

Service-mindset and professional attitude

Conscientious and professional service is our hallmark. We're easy to work with, and offer contract-based agreements and tax invoicing for your convenience.

#3

Fast delivery, easy access

Our young and proactive teams use the best technology and modern processes to respond quickly and deliver products in record time. All deliveries are easily accessed online and securely stored on our cloud.

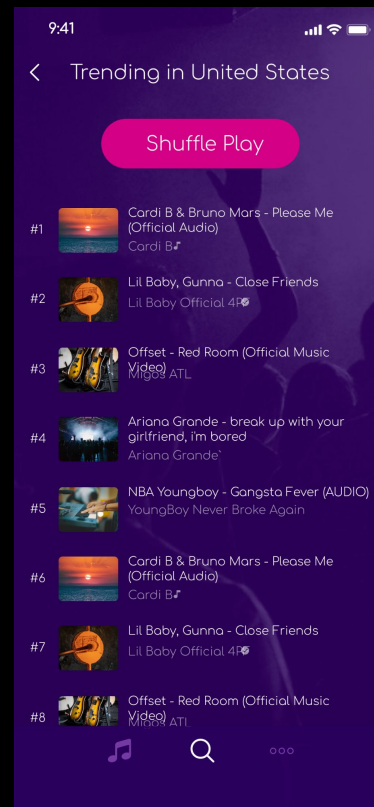

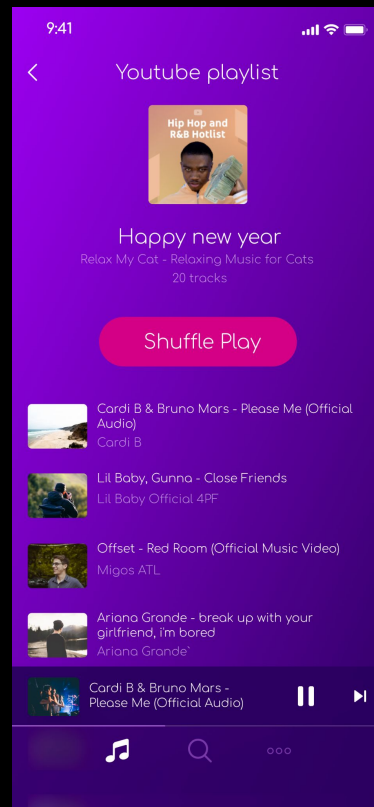

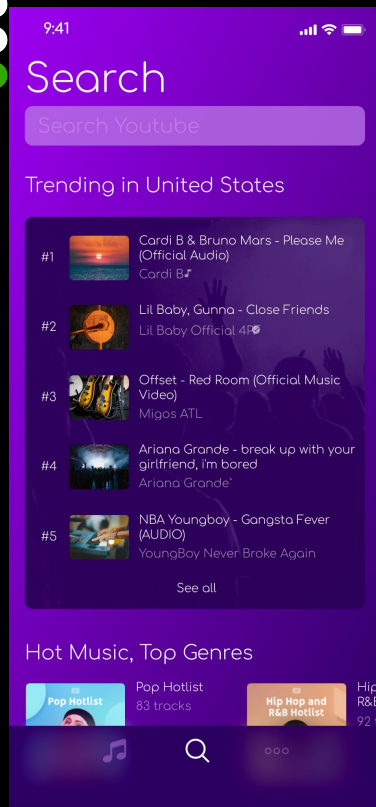

#4

Close collab, long term commitment

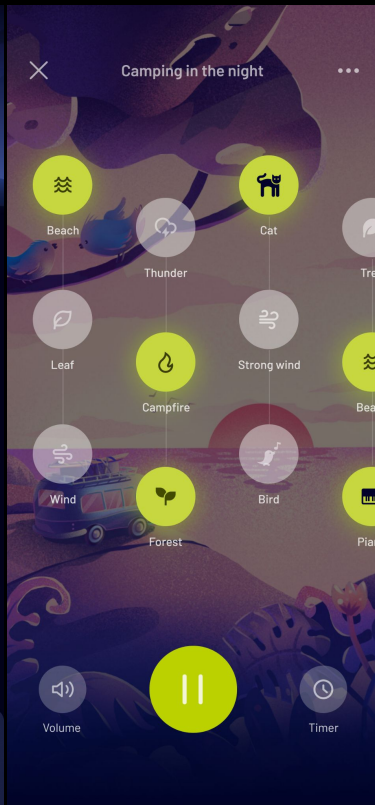

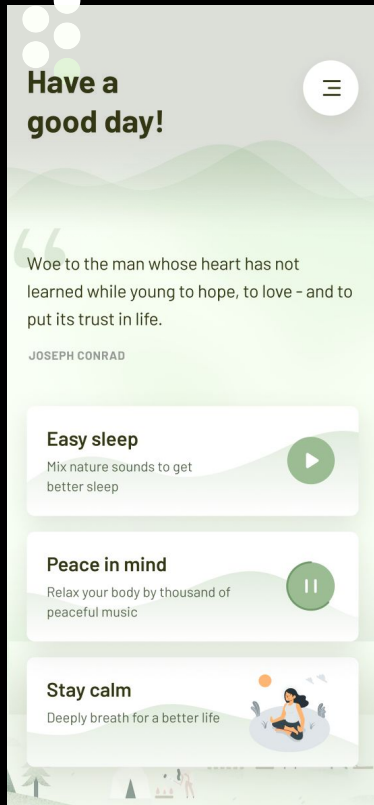

We work with you daily as if we're in your office. Our after-sales care policies ensure your satisfaction and make you want to return to us in the future.

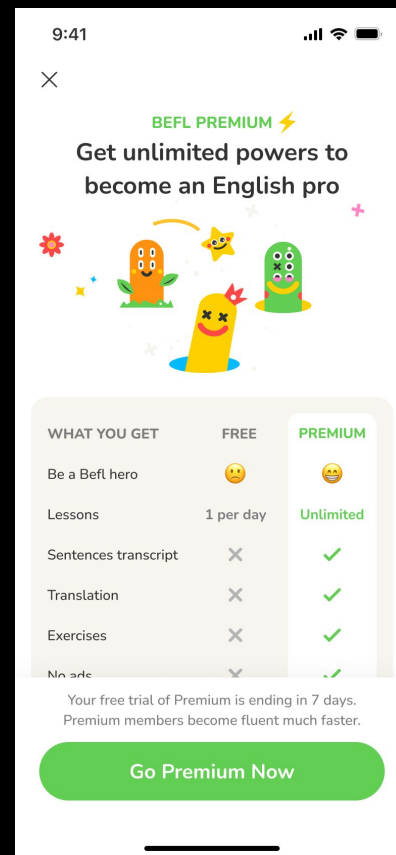

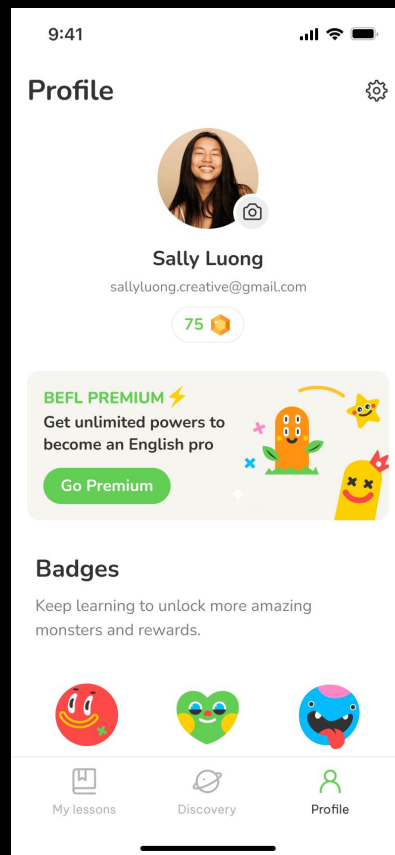

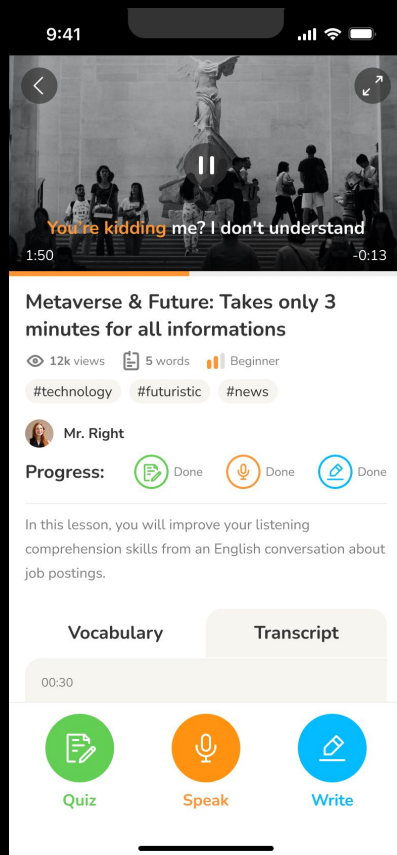

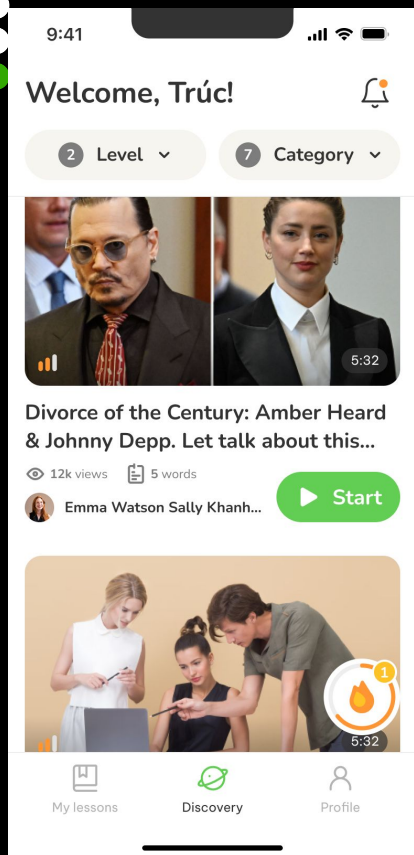

What we have built

Music Pro - Play Youtube in the background

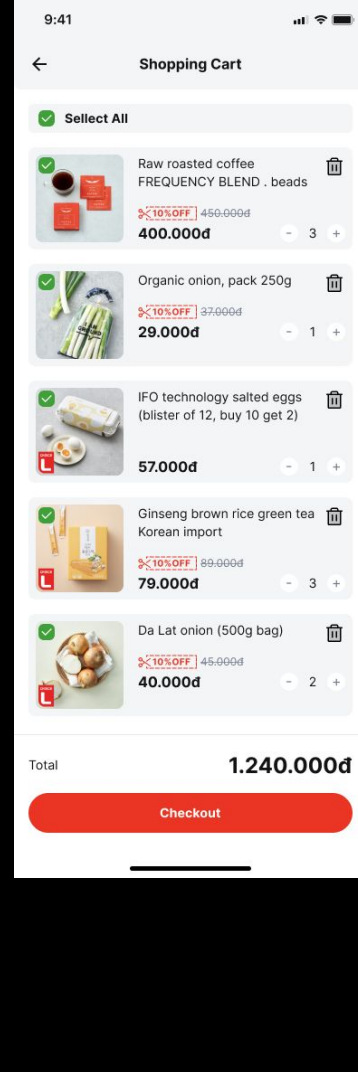

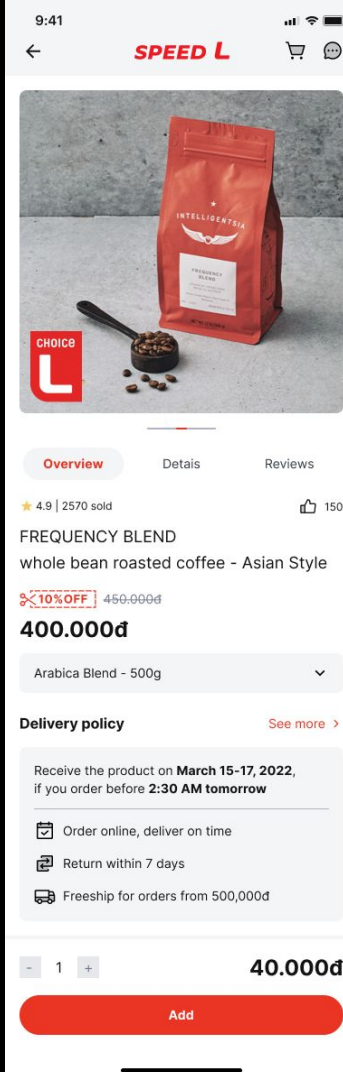

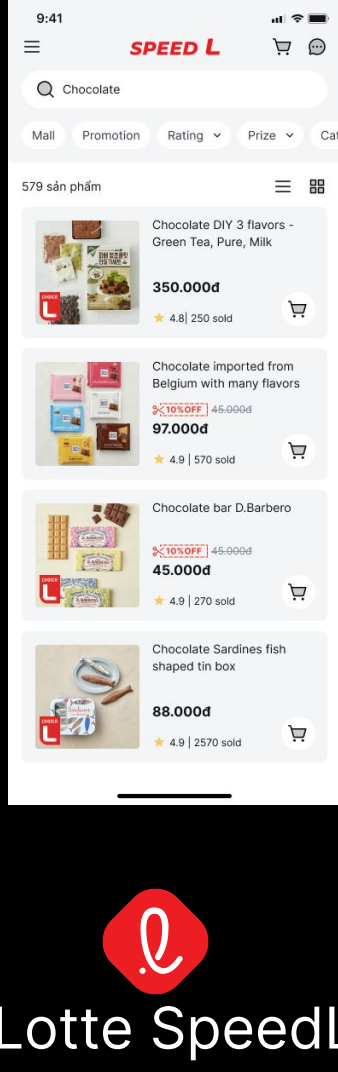

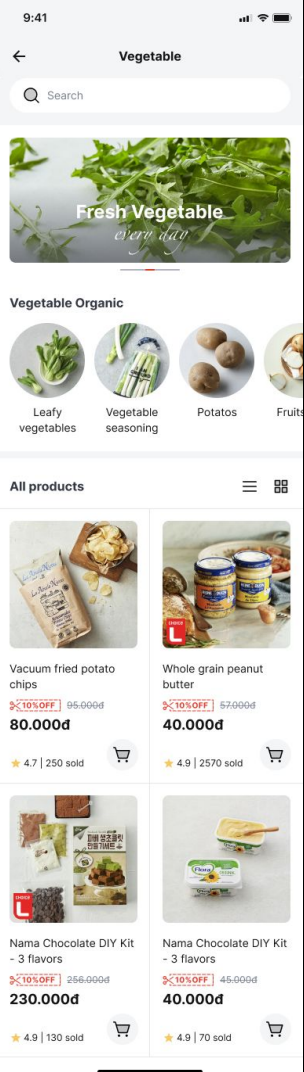

peace - sleep, relax and music

befl

BEFL - Learn a new language

About Onerity

As a world-leading innovation team, we use
our ambitious minds and passionate hearts
to build world-class products that meet
your needs and exceed your expectations.

“Onerity was founded to bridge the gap between the demand for high-quality products and services and the existing market supply.

Our technology background drives our passion for world-class quality and user-centric products.”
